Challenges

Before partnering up with SpamExperts, AltusHost used a spam and virus filtering solution from a SpamExperts competitor.

Although spam was not an overwhelming problem, the team still spent valuable time and resources trying to deal with it. As the company wanted to also add value to their product offering, SpamExperts highly professional solutions seemed to be the best choice.

Customer profile

Implementation

AltusHost became a SpamExperts client in 2015. Once management discovered the solutions, they immediately implemented Incoming and Outgoing filters in the Local Cloud, as they wanted to have the flexibility of using their own infrastructure, while providing a proven anti-spam solution with exceptionally low latency.

The company is very pleased with the results and plan on expanding the license in the near future. Furthermore, SpamExperts solutions are a valuable add-ons for enhancing product offering, reason for which AltusHost is offering the services to their clients over a white label network.

Benefits

SpamExperts anti-spam and virus solutions instantly raised their filtering level and reduced time investment, so AltusHost team could use their resources on other business opportunities.

Besides a significant reduction in the amount of incoming and outgoing spam, AltusHost is experiencing an excellent filtering accuracy rate for them and their customers, and saving on internal resources and costs.

Target Reached

“SpamExperts solutions are amazing and solved all our spam problems instantly, reason for which including them in our product offering has been a great enhancement. The incredible accuracy and professional support team have repeatedly shown us we’ve made the right choice,” said Nikola Tanaskovic, AltusHost COO.
